

## Who We Are

The National Children's Cancer Society (NCCS) tirelessly and compassionately supports families making their way through the daunting world of childhood cancer. With over **thirty years** of experience serving more than **43,000 children**, NCCS has become a master navigator of this world, helping families get where they need to be – physically, financially and emotionally – to give them hope, and to give their children the **best possible shot at survival**.

Distributing over **\$66 million** to families over its lifetime with the help of compassionate donors, NCCS is able to take a **"no matter what"** approach, creating a clear path through the labyrinth of childhood cancer and survivorship to help families stay strong, stay positive and stay together. **Because no family should go through childhood cancer alone.**

## What We Do

- **In the United States**

Our **Family Support Program**, **Transportation Assistance Fund** and **Emergency Assistance Fund** provide emotional and financial support to families throughout the United States during their child's cancer treatment. By eliminating some of the psychological and financial hardships associated with cancer, families can stay focused on the health and well-being of their child.

The **Beyond the Cure** survivorship program prepares survivors and their families for life after cancer. Our **Late Effects After Treatment Tool (LEATT)** provides survivors with a private, customized online assessment of potential late effects based on their diagnosis and treatment. In addition, Beyond the Cure awards college scholarships to childhood cancer survivors, distributes free links and educational materials provides information on additional resources.

- **Around the World**

The **Global Outreach Program** coordinates worldwide distribution of donated pharmaceuticals and medical supplies to pediatric oncology treatment centers in less-developed countries throughout the world. The program is dedicated to addressing the critical effects of inadequate and nonexistent medical care for thousands of children with cancer worldwide.

## FY2018 Summary

During the past fiscal year (10/01/17–09/30/18) the NCCS:

- Distributed nearly \$1 million in financial assistance
- Supported 2,139 families throughout the United States with some form of financial assistance
- Sponsored ten Beyond the Cure regional conferences
- Awarded (58) college scholarships totaling \$203,000 to childhood cancer survivors
- Distributed over 5,484 free educational publications
- Provided 686 personalized late effects assessments from the LEATT
- Delivered \$16.2 million in donated pharmaceuticals & medical supplies to eight pediatric oncology treatment centers in eight countries
